greg.unionstreet@gmail.com

Forum will center around the Global Competency Indicators.

Presenters will tie in the indicators to their projects.

Attendees will be given time to consider how what they already do aligns with the global indicators.

Keynote Speaker: Dr. Colby Smart
Presenters:

- Dr. Thomas Herman
Director, California Geographic Alliance
- Local educators who are also 2022 CGEP fellows.

What is Global Competency and what are Global Competency Indicators?

Global Competence is the disposition and knowledge to understand and act on issues of global significance (CCSSO & Asia Society). The Global Competency Indicators are habits of mind and explicit practices that students, parents/guardians, and community partners can use for themselves in order to develop global competence.
